RECENT PROJECTS

PORCH ELECTRICAL INSTALLATION

Franklin TN

Electrical installation for a newly built porch with specialty waterproof soffit lights and ceiling fans along with dedicated exterior plugs for future use of fire place and other outdoor activities.

- New wiring
- Specialty waterproof soffit lights for exterior use
- Dedicated circuits for safe exterior power use
- Coordinated with other contractors and resolved on-site challenges related to prior construction issues to meet project expectations.

COMPANY PROFILE

BASEMENT ELECTRICAL INSTALLATION & DRYWALL

Electrical installation for a basement renovation, providing reliable power for dedicated systems and flexible circuits designed for everyday use and future needs.

Scope of Work:

- Installed lighting and receptacles for laundry, dryer, water heater, sump pump, and dehumidifier
- Added general-use circuits to support recreational and living areas
- Worked through multiple project phases, coordinating electrical and drywall work for a clean finish
- Provided design guidance and practical recommendations to align functionality with the homeowner's vision
- Completed final detail work, including specialty cover plates ordered specifically for the space

COMPANY PROFILE

CRAWL SPACE ELECTRICAL INSTALLATION

Electrical evaluation and installation for crawl space systems, ensuring safe, reliable power for equipment installed beneath the home.

Scope of Work:

Diagnosed existing electrical conditions and identified installed crawl space equipment

Determined feasibility of dedicated circuits based on equipment requirements

Installed direct power lines and receptacles for each device and system

Coordinated closely with crawl space service providers, including AFS Foundation & Waterproofing Specialists and LookOut Pest Control, to ensure timely installation and customer satisfaction.

COMMERCIAL & SUBCONTRACTING EXPERIENCE

Felix Electric provides subcontracted electrical services for licensed contractors and service providers across Middle Tennessee and Kentucky. We have experience working under both homeowner-direct and contractor-billed arrangements, ensuring flexible billing, clear communication, and timely project completion.

Past work includes:

- AFS Foundation & Waterproofing Specialists
- LookOut Pest Control
